Dr. J. Lederberg  
Department of Genetics  
College of Agriculture  
University of Wisconsin  
Madison 6, Wisconsin

Dear Dr. Lederberg:

I enclose a draft manuscript describing some K12 bacterial crosses with carried lambda mutants. I hope to summarise this work during the discussion on Hayes's paper at the coming C.S.W. Symposium, and although it is still in a somewhat rough state, would very much appreciate any comments you or Mrs. Lederberg might care to make on it.

Following earlier correspondence with Mrs. Lederberg, I am looking forward very keenly to the possibility of pooling all our information about the lambda system at the Symposium.

Sincerely yours,

*Raymond K. Appleyard*
